

Article 5: Street Acceptance – Sunrise Drive.

This article is to accept Sunrise Drive from South Whitney to the turnaround at unit 34-36 Sunrise Drive, roughly 380 feet. This street is currently owned by the Amherst Housing Authority. The road was in existence by 1937. It was proposed as a public way at the March 1941 ATM but was dismissed. It was conditional accepted at the March 1953 ATM but the conditions were not fulfilled. The Amherst Housing Authority contracted with the Amherst DPW to pave and repair the roadway in 2011. This work has been completed and the roadway is being recommended for acceptance as a public way.

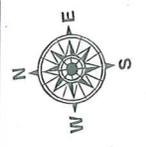

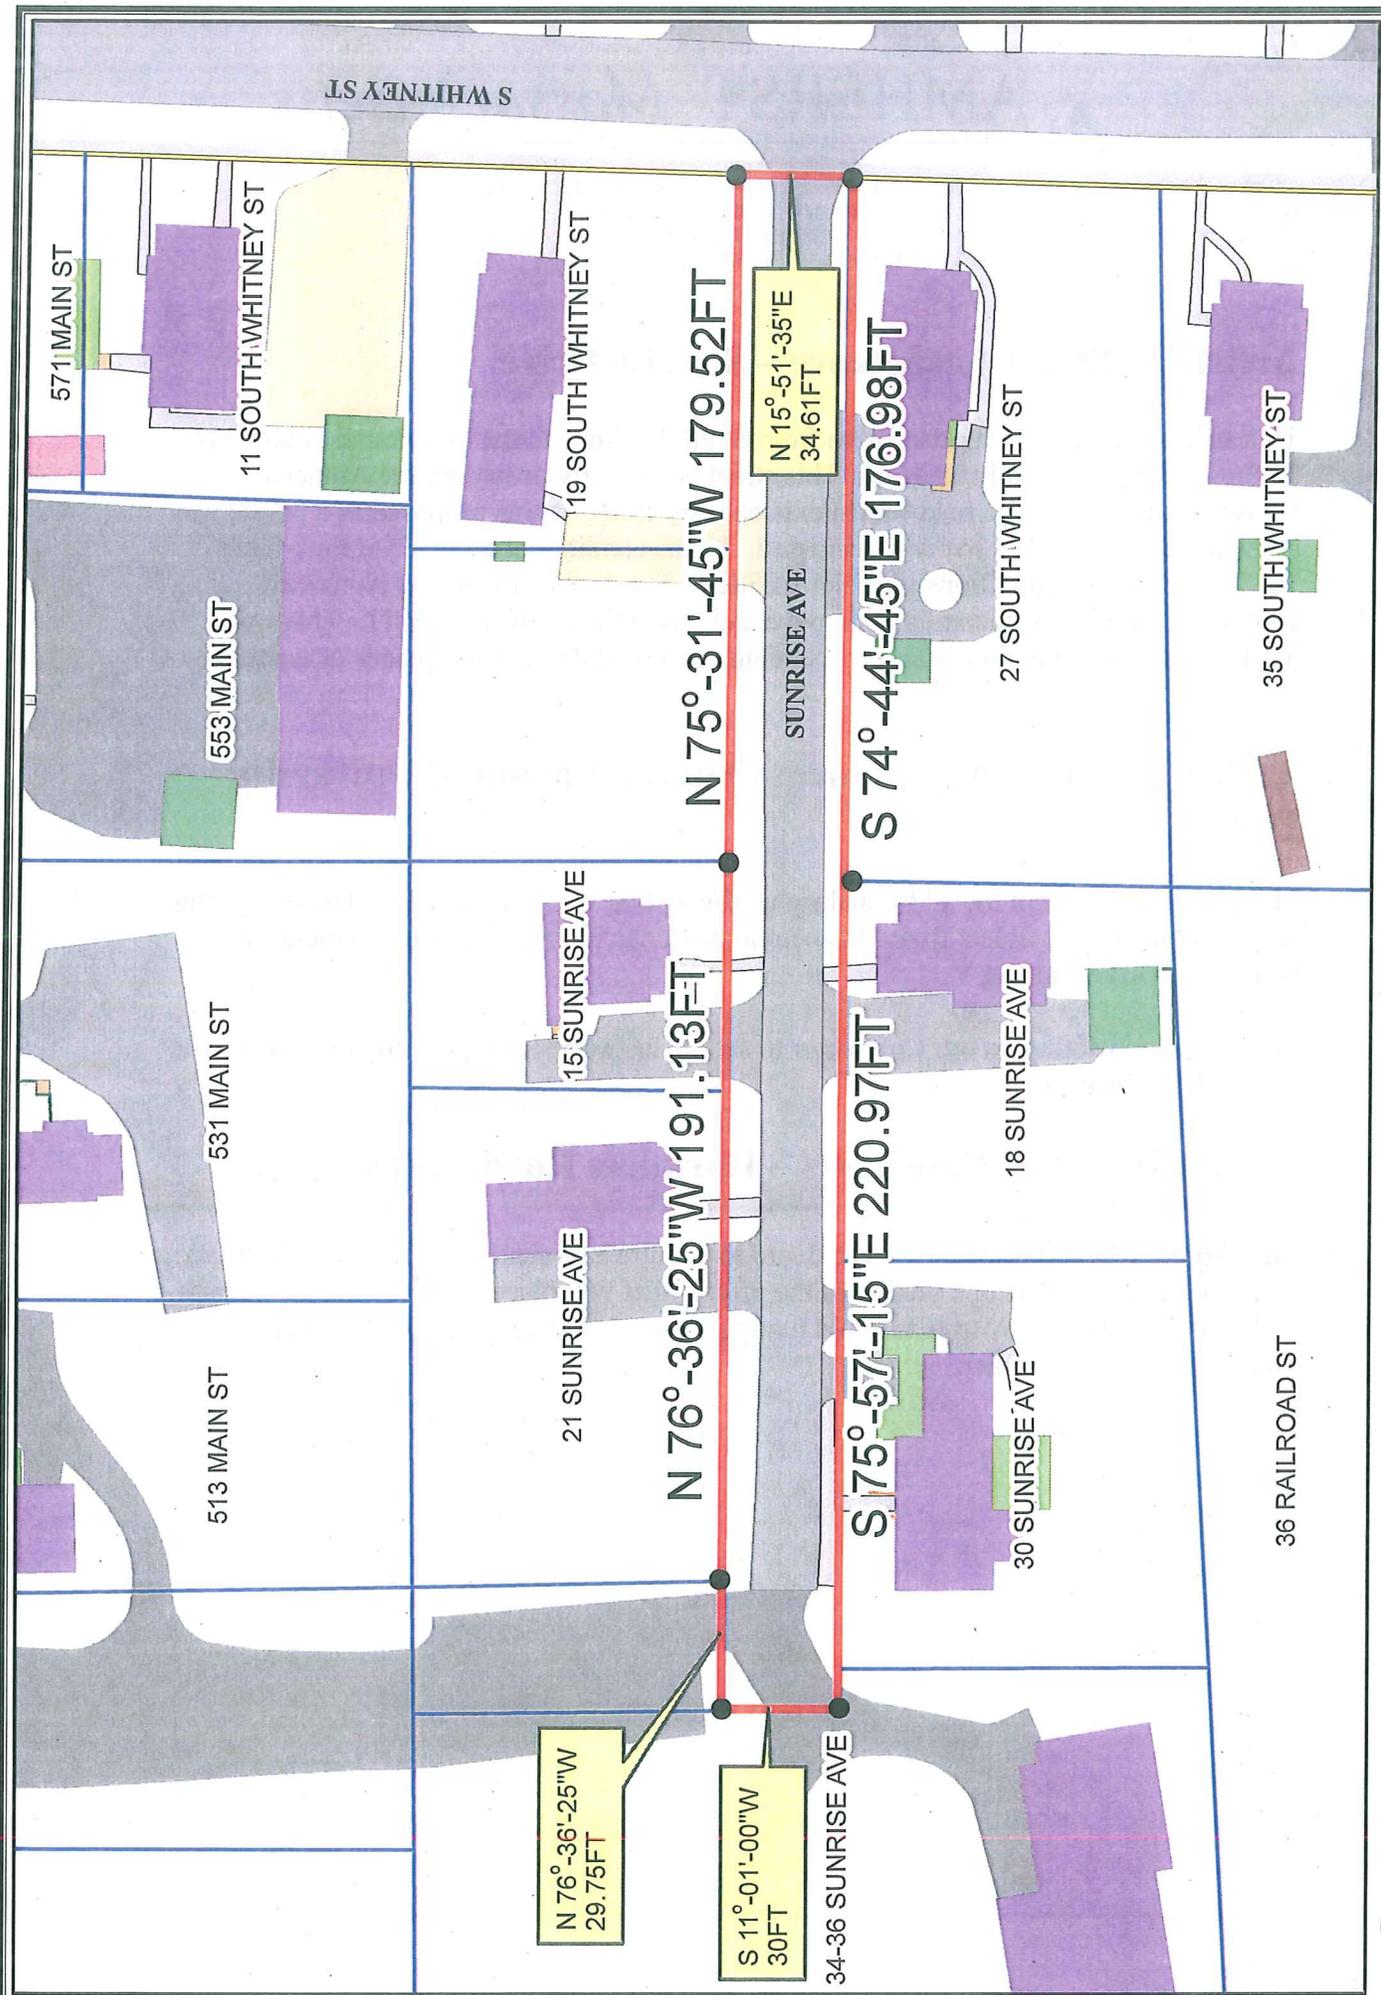

Article 6: Street Acceptance – Altered Layout of University Drive.

This article is to accept the additional right-of-way that was authorized by Town Meeting and Accepted by the Select Board to accommodate the intersection improvements at University Drive and Big Y.

Note: We are waiting on our Contractor to set the last two signal pole and then the traffic light will be installed.

Article 7: Sewer Easements – Harkness Road Project

This Article will authorize the Select Board to acquire easements for the Harkness Road sewer project. There is one section of the project that will place the sewer line at a depth of 15-20 feet. The DPW tries to avoid having sewers this deep to keep maintenance service connection simpler.

1 inch = 50 feet
