PROJECT DESCRIPTION: RECONSTRUCTION OF RTE 116 - MHD PROJ #604043 25% HIGHWAY DESIGN REVIEW CHECKLIST Submission Date 02/16/07

PURPOSE

The 25% highway design review is intended to provide MassHighway the opportunity to evaluate the proposed design relative to current design standards, right of way impacts, environmental impacts and other potential community concerns associated with the proposed design.

GENERAL

This checklist represents the minimum amount of issues that should be considered when reviewing a 25% highway submittal. The information below is not intended to address all aspects of plan preparation. To the extent practical, any comments relative to plan preparation made at the 25% stage will certainly improve the quality of the 75% submittal.

Any question listed below with a No (N) or Not Applicable (NA) answer will require a written comment.
