The terms and conditions and fees for licenses granted under this section shall be determined by the Board of Selectmen, as the licensing authority pursuant to this by-law.

KEG BYLAW: With an increase in the fine for violations of the keg bylaw, the intended outcome is to deter the offense, thus reduce call volume that is associated with the keg parties: unlawful bars, medical calls for intoxication, loud parties, disturbances, and fights. The increased fine will be a deterrent to violators, whereas the current fine structure does not act as a deterrent. The Police Department is in support of this recommendation.

- In FY2010, the Police Department has lost 5 sworn positions (50 to 45), which represents a 10% reduction in personnel. Decreasing call volume is imperative to maintaining safety for the community and police personnel.
- Unlicensed kegs are most often found secondary to a noise complaint. It is apparent that parties where the host provides unlimited drinking, whether for a fee or not, causes disturbance related issued for surrounding neighbors.
- In a detailed review of the last 3 years of TBL Keg Citations, there has only been one instance of a repeat offender. The current system appears successful in deterring repeat offenders, as a 2<sup>nd</sup> offense is \$300. By increasing all violations to \$300, including a 1<sup>st</sup> violation, we anticipate that this will deter these 1<sup>st</sup> violations, and the associated disorder calls that accompany such behavior.

**NOISE BYLAW:** With an increase in the fine for violations of the noise bylaw, the intended outcome is to deter the offense, thus reduce call volume for the Police Department. The increased fine will be a deterrent to violators, whereas the current fine structure does not act as a deterrent. The Police Department is in support of this recommendation.

- All valid noise complaints must have a reporting party, which is a citizen contacting the police department to complain, clearly identifying the offending location. Noise violations that officers observe during routine patrol, without a complaint from a reporting party, are not considered violations of the noise bylaw.
- Within the last 5 calendar years, on average 8% of the ALL Police Department response to calls is for noise complaints. Noise complaints are the most resource intensive of all call types.
- Within the last 5 calendar years, on average 7% of noise calls received what would be considered a "punitive" response: an arrest, summons or town bylaw violation. The non-punitive actions include warnings to the violators.
- Despite an increase in the total number of violators over the last 2 years, there has been minimal decrease in the amount of noise calls. The punitive actions utilized do not appear to be affecting future behavior (decreasing call volume)
- In FY2010, the Police Department has lost 5 sworn positions (50 to 45), which represents a 10% reduction in personnel. Decreasing call volume is imperative to maintaining safety for the community and police personnel.
