

School Out of District Data

The chart below illustrates the percentage of students that elect to attend another public school or a charter school through December of 2015. The "APLS" line includes K-12 students from Region, Amherst, Pelham, Leverett, and Shutesbury.

The chart below illustrates the percentage of students that the District is financially responsible for (excludes private and home school students) that attend any out of district school (charter, choice, voc, special education). FY14 most recent year available.
