REPORT OF THE
JOINT CAPITAL PLANNING COMMITTEE
OCTOBER 2015

FY 16 Fall Town Meeting Recommendation Summary

Article 5 would amend the General Bylaws to allow the use of electronic voting systems in Town Meeting. The proposed changes would not abolish existing procedures for voting, but would provide for a more rapid, accurate, and tamper-resistant means of voting when the Moderator is unsure of a voice vote or when the usual numbers of town meeting members request a standing or tally vote.

The Joint Capital Planning Committee supports Article 5 because it may improve the efficiency and accuracy of Town Meeting.

The JCPC voted in favor of this Article with 6 supporting, 0 against, 0 abstaining, and 2 absent.

Article 6 asks the Town to appropriate $26,000 to pay for the purchase of an electronic voting system for Town Meeting. Contingent upon approval of Article 5, this Article would allow for the purchase of an as-yet-undecided electronic voting system. This money was approved by the JCPC in 2015 in the context of a reasonable and well-thought-out proposal to improve the efficiency and accuracy of Town Meeting Votes. The JCPC explored a number of options, including renting or leasing electronic voting equipment, but believe that purchasing is the most cost-effective way to obtain this equipment.

The JCPC voted in favor of this Article with 6 supporting, 0 against, 0 abstaining, and 2 absent.

JOINT CAPITAL PLANNING COMMITTEE
Katherine Appy, School Committee
Steve Braun, Finance Committee
Bernie Kubiak, Finance Committee
