**ARTICLE 7. Zoning Bylaw - Temporary Moratorium on Recreational Marijuana Establishments
(Planning Board)**

To see if the Town will amend the Zoning Bylaw by amending Section 3.0, Prohibited Uses – All Districts, by adding a new section, Section 3.03, Temporary Moratorium on Recreational Marijuana Establishments, that would provide as follows, and further to amend the Table of Contents to add Section 3.03, “Temporary Moratorium on Recreational Marijuana Establishments” as shown in *bold italics*:

3.03 Temporary Moratorium on Recreational Marijuana Establishments

3.030 Purpose

On November 8, 2016, the voters of the Commonwealth approved a law regulating the cultivation, processing, distribution, possession and use of marijuana for recreational purposes (new G.L. c. 94G, Regulation of the Use and Distribution of Marijuana Not Medically Prescribed). The law, which allows certain personal use and possession of marijuana, took effect on December 15, 2016 and (as amended on December 30, 2016 by Chapter 351 of the Acts of 2016 and thereafter, on July 28, 2017 by Chapter 55 of the Acts of 2017) requires a Cannabis Control Commission to issue regulations regarding the licensing of commercial activities by March 15, 2018 and to begin accepting applications for licenses no later than April 1, 2018. Currently under the Zoning Bylaw, a non-medical Marijuana Establishment (hereinafter, a “Recreational Marijuana Establishment”), as defined in G.L. c. 94G, §1, is not specifically addressed in the Zoning Bylaw. Regulations to be promulgated by the Cannabis Control Commission may provide guidance on certain aspects of local regulation of Recreational Marijuana Establishments. The regulation of recreational marijuana raises novel legal, planning, and public safety issues, and the Town needs time to study and consider the regulation of Recreational Marijuana Establishments and address such issues, as well as to address the potential impact of the State regulations on local zoning and to undertake a planning process to consider amending the Zoning Bylaw regarding regulation of Recreational Marijuana Establishments. The Town intends to adopt a temporary moratorium on the use of land and structures in the Town for Recreational Marijuana Establishments so as to allow sufficient time to address the effects of such structures and uses in the Town and to enact bylaws in a consistent manner.

Section 3.031 Definition

“Recreational Marijuana Establishment” shall mean a marijuana cultivator, independent testing laboratory, marijuana product manufacturer, marijuana retailer or any other type of licensed marijuana-related business for non-medical purposes.

Section 3.032 Temporary Moratorium

For the reasons set forth above and notwithstanding any other provision of the Zoning Bylaw to the contrary, the Town hereby adopts a temporary moratorium on the use of land or structures for a Recreational Marijuana Establishment and other uses related to recreational marijuana. The moratorium shall be in effect through December 31, 2018. During the moratorium period, the Town shall undertake a planning process to address the potential impacts of recreational marijuana in the Town, and to consider the Cannabis Control Commission regulations regarding Recreational Marijuana Establishments, and shall consider adopting new Zoning Bylaws in response to these new issues. This moratorium shall be applicable to all recreational marijuana establishments notwithstanding any zoning bylaw amendments adopted by the Town allowing for such uses prior to December 31, 2018.

**ARTICLE 8. Zoning Bylaw - Table 3 Footnotes – Miscellaneous

To see if the Town will amend Section 4.32 and Article 6, Table 3 of the Zoning Bylaw as follows:

See Section 4.12. In addition, the applicant shall submit a Yield Plan. See Article 12.

4.324 For all cluster developments, the following Dimensional Regulations shall be substituted for those in Article 6, Table 3.

- m. In addition to the areas required by this table for any existing dwelling units on the lot, the density for new town houses (Section 3.322) and apartments (Section 3.323) shall not exceed one dwelling unit per 4,000 sq. ft. of the remaining lot area, or in the case where there are no existing dwelling units, 4,000 sq. ft. for each new dwelling unit beyond the first unit.

Part C. Amend Table 3 by removing the bottom four rows and the footnotes deleted under Part B of this article, and by replacing the term “70/85” in Row “Maximum Lot Coverage (%)”/Column “B-L” with the numeral “85”.

The RSDPC may join with a corresponding Committee from another town to form a Regional School District Planning Board to perform a detailed exploration of and make a recommendation as to forming a regional school district for students in grades kindergarten through six.

**ARTICLE 11. Resolution Regarding Charter School Funding and Expansion
(Amherst School Committee)**

WHEREAS: providing free and equal access to the highest quality education possible for every student in our public schools - regardless of income, language proficiency, disability or any other difference - is a foundational principle core to our democracy;

WHEREAS: all schools funded by public tax dollars should be driven by this central mandate of civic and social responsibility;

WHEREAS: the charter tuition formula is fundamentally flawed, based on the spending level of the sending district, taken directly from the sending district's funding, and without consideration for the need level of the students sent;

WHEREAS: the charter tuition formula unfairly draws resources away from districts - such as Amherst and Amherst-Pelham Regional - that choose to make substantial investments in robust programs and resources for students with disabilities, English-language learners and economically-disadvantaged students, further escalating the budgetary impact on districts;

WHEREAS: the charter tuition formula includes in-district special education costs, but excludes special education costs out-of-district - creating a financial disincentive for districts to service special needs students with their peers in-district;

WHEREAS: the charter tuition formula already draws more than \$3 million from the Amherst and Amherst-Pelham Regional budgets, negatively impacting our resources and program levels;

WHEREAS: the state is required by M.G.L. c.71 § 89 (gg) to reimburse districts for 100 percent of charter tuition costs for the first year and 25 percent for the following five years, but has only been reimbursing districts for the first year since 2012;

WHEREAS: in recognition of the inequities created by the systemic problems with charter funding, 62% of Massachusetts and 78% of Amherst voted against the 2016 Question 2 Charter School addition and expansion;

THEREFORE BE IT RESOLVED that the Town of Amherst calls upon the Commissioner of Elementary and Secondary Education to work with the Legislature to develop and pass a state funding formula for district public schools and charter schools that adequately funds their respective missions;

BE IT FURTHER RESOLVED that the Town of Amherst calls upon Commissioner of Elementary and Secondary Education and the Massachusetts Board of Elementary and Secondary Education (BESE) to not approve any existing charter amendment to increase enrollment, and to further deny all similar charter school expansion requests until the funding formula has been corrected,

AND BE IT FURTHER RESOLVED that upon passage the Amherst Town Clerk shall mail copies of this resolution and vote to the Commissioner of Elementary and Secondary Education, BESE, the state Joint Committee on Education, our elected state Senator Stan Rosenberg and our elected state Representative Solomon Goldstein-Rose.

To see if the Town will vote to amend the General Bylaws by adding a new bylaw as follows:

1. Purpose

The purpose of this bylaw is to recognize the protection afforded Town Public Shade Trees pursuant to Chapter 87 of the General Laws. In connection therewith, the bylaw authorizes the Select Board, in consultation with the Tree Warden, to promulgate regulations addressing the process by which these trees may be cut or removed. The bylaw also authorizes creation of a committee, appointed by the Select Board, to serve in an advisory role to the Tree Warden. Lastly, the bylaw provides for an enforcement scheme consistent with the General Laws to address unauthorized cutting or removal.

2. Public Shade Tree Committee (“PSTC”) duties

The PSTC shall work to protect and promote Public Shade Trees consistent with the committee charge as set forth herein and as may be approved by the Select Board from time to time, including:

- c. Searching out and designating locations for new plantings and organizing tree plantings, encouraging broad citizen participation.

3. Promulgation of Regulations

The Select Board shall hereby be authorized to promulgate regulations consistent with law to implement the provisions of this bylaw, including but not limited to:

- a. establishing a process for applying for authorization to cut or remove Public Shade Trees as that term is defined in the General Laws (hereinafter “Public Shade Trees”);
- b. setting penalties for violations of such regulations;
- c. establishing mitigation requirements in the event of a violation thereof, including payment of any related costs incurred by the town; and
- d. establishing an appeal process.

4. Prohibited Acts

No person shall violate any provision of the General Laws applicable to Public Shade Trees, this bylaw or any regulation promulgated hereunder.

5. Enforcement

This bylaw and any regulations promulgated hereunder may be enforced by any means available in law or in equity, including non-criminal disposition. For purposes of non-criminal disposition, the term “enforcing person” shall mean the Tree Warden or any police officer of the town of Amherst. Each day a violation exists with respect to each Public Shade Tree shall constitute a separate violation. In the absence of a regulation promulgated hereunder establishing a different amount, each such violation shall be subject to a fine of \$300.

ARTICLE 16. Petition – Resolution in Support of 100 Percent Renewable Energy

(Lee Jennings et al.)

To see if the Town will vote to adopt the resolution in support of 100 percent renewable energy:

WHEREAS, too much of Massachusetts' energy comes from fossil fuels that pollute our air and water and damage our climate, and Massachusetts communities are already feeling the impacts of global warming; and,

WHEREAS, the Town of Amherst is already actively reducing its carbon emissions and promoting clean energy, by taking actions including energy efficiency upgrades in municipal buildings and street lights, running a highly successful Solarize Amherst program, using electric vehicles and installing public EV charging stations; and,

WHEREAS, clean energy has brought many benefits to Massachusetts, including reduced pollution, tens of thousands of clean energy jobs, and more of our energy dollars retained in the local economy; and,

WHEREAS, Massachusetts has historically been a leader in the fight against global warming, has a responsibility to continue to set a positive example for other states and countries to follow, and has the ability to get 100 percent of its energy from clean, renewable sources by harnessing its abundant solar and wind resources, and taking advantage of innovations in energy efficiency, green transportation, energy storage, and other technologies; and

WHEREAS, the transition to 100 percent renewable energy should promote employment opportunities and economic growth in our communities, facilitate local control and ownership over energy options, and bring tangible benefits to low-income residents and others who have historically been disadvantaged by our energy system;

NOW, THEREFORE, BE IT RESOLVED by Town Meeting in the Town of Amherst in the County of Hampshire, Commonwealth of Massachusetts, that Massachusetts should commit to a goal of 100 percent clean, renewable energy, and move as quickly as possible to achieve that goal;

AND BE IT FURTHER RESOLVED that leaders in the Legislature and statewide elected and appointed officials are urged to support legislation that would bring Massachusetts to 100 percent renewable energy, and ensure that the benefits of renewable energy are realized by Massachusetts residents from all walks of life;

AND BE IT FURTHER RESOLVED that the Town of Amherst and its staff will consider all municipal decisions in light of whether they will bring the Town and its residents, businesses, and institutions closer to 100 percent renewable energy;

AND BE IT FURTHER RESOLVED that the Town of Amherst will avoid taking actions that could increase the use of fossil fuels or delay the transition to 100 percent renewable energy;

AND BE IT FURTHER RESOLVED that the Town of Amherst will strive to take actions to promote clean energy and reduce fossil fuel use, including

- Continued ENERGY EFFICIENCY UPGRADES in municipal buildings
- Promotion of ENERGY EFFICIENCY upgrades in private homes and businesses
- Consideration of commencing a Community Choice Aggregation (or "CCA") program pursuant to G.L. c. 164, §134 in joint action with other municipalities, to
 - Purchase additional class 1 RECS above that required by the Renewable Portfolio Standard; and

- Adopt a comprehensive energy plan that would:
 - Significantly reduce energy demand through electrification and the use of energy efficiency products and services and energy conservation measures;
 - Develop the maximum possible amount of renewable distributed energy resources to be sited, owned and used within the CCA community; and
 - Provide rate stability and possible reduced consumer cost savings through bulk purchasing

**ARTICLE 17. Petition – Resolution in Support of the End of Life Options Act
(Nadine Shank et al.)**

Non-Binding Resolution for the Amherst Town Meeting to Call on the State Legislature to Pass ‘The End of Life Options Act’ and Make Massachusetts the 7th State plus Washington DC to allow citizens to request and receive compassionate aid in dying medication from their doctor.

WHEREAS, advances in science and technology have created medical interventions that often prolong the dying process and increase suffering; and

WHEREAS, “aid in dying” describes a medical practice defined by established standards of care in Oregon for the past 19 years and in the state of Washington for 9 years. It enables a mentally capable, terminally ill adult to obtain a prescription for medication, which the patient may choose to self-administer, in the face of unbearable suffering, to advance the time of an approaching death; and

WHEREAS, many people find significant relief in the legal right and medical means of control in bringing an end to the suffering caused by their terminal illness, and only a small minority of the adults who request a prescription for life-ending oral medication actually receive and use it; and

WHEREAS, annual reports by the Public Health Department of Oregon’s implementation of the law show “no evidence of heightened risk for the elderly, women, the uninsured, people with low educational status, the poor; the physically disabled or chronically ill, minors, people with psychiatric illnesses including depression; or racial or ethnic minorities;” and

WHEREAS, many find comfort and peace of mind in having access to options at the end of life, including aid in dying, even if they do not exercise those options; and

WHEREAS, 72% of Amherst voters voted in favor of the 2012 Ballot Initiative authorizing aid in dying, and state Rep. Peter Kocot and many other legislators from western Mass. are co-sponsors of the 2017 bill called ‘The End of Life Options Act’; and

WHEREAS, a 2014 public opinion poll by Purple Strategies found 70% of Massachusetts registered voters agree with the statement: The decision of a terminally ill adult to end their own life should be a private decision between the patient, their family, their faith, and their own doctor; and

WHEREAS, seven jurisdictions (Oregon, Washington, California, Montana, Colorado, Vermont, and the District of Columbia) now authorize the medical practice of aid in dying; and

WHEREAS, aid in dying is only available to those terminally ill, mentally capable adults who have a prognosis of six months or less to live, as determined by their doctor and confirmed by a second medical doctor; and

WHEREAS, well-respected health and medical organizations recognize aid in dying as a legitimate, necessary end-of-life option for eligible adults facing an imminent death from a terminal illness, including The American

Public Health Association, The American Medical Women's Association, The American Medical Student Association, The American Academy of Legal Medicine, The Gay and Lesbian Medical Association;

WHEREAS, the Commonwealth of Massachusetts statute on "assisted suicide" is not applicable to the choice of a psychologically healthy, terminally ill individual facing end-of-life suffering, who asks his or her physician for the means to die in a humane and dignified manner;

THEREFORE BE IT NOW RESOLVED, that the Amherst Town Meeting respects the diversity of perspectives on end-of-life decisions; and supports equal protection within the diversity of perspectives on end-of-life decisions; and

THEREFORE BE IT RESOLVED, that the Amherst Town Meeting recognizes the practice of aid in dying as a desirable medical option for many terminally ill, mentally capable adults; and

THEREFORE, BE IT NOW RESOLVED, that the Amherst Town Meeting hereby calls on the Massachusetts State Legislature to pass 'The End of Life Options Act'; and

THEREFORE BE IT FURTHER RESOLVED, that this resolution shall be transmitted to the Commonwealth of Massachusetts Legislature, including state representatives and state senators who represent the Town of Amherst.
