

**TOWN OF AMHERST
REGULATION PROHIBITING SMOKING and VAPING
IN WORKPLACES and PUBLIC PLACES**

SECTION 1: PURPOSE

The purpose of this regulation is to protect the health of employees in their workplaces from exposure to secondhand smoke and to protect the health of the general public from extended exposure to secondhand smoke in places where they congregate. Scientific evidence indicates a risk from exposure to secondhand smoke and that it causes disease and premature death in children and adults.¹ E-cigarettes contribute to indoor air pollution which can exceed the smoke-free level recommended by the Surgeon General.² Depending on the conditions high levels of secondhand smoke can occur in outdoor areas.³

SECTION 2: AUTHORITY

This regulation is promulgated under the authority granted to the Amherst Board of Health pursuant to Massachusetts General Laws Chapter 111, Section 31 that "[b]oards of health may make reasonable health regulations." It is also promulgated pursuant to Massachusetts General Laws Chapter 270, Section 22(j) which states in part that "[n]othing in this section shall permit smoking in an area in which smoking is or may hereafter be prohibited by law including, without limitation: any other law or...health...regulation. Nothing in this section shall preempt further limitation of smoking by the commonwealth...or political subdivision of the commonwealth."
