- B. All references to governmental agencies and positions include successors, unless otherwise stated (e.g. Mass DPW interpreted to mean MassDOT).
- C. When the word “including” is used, its meaning shall not be interpreted as “exclusively” or as a limitation, unless otherwise stated.
- D. The General Bylaws compute time as proscribed by Section 9.5 of the Charter, “the day of the act or event shall not be included. The last day of the period shall be included, unless it is a Saturday, Sunday, or legal holiday, in which event the period shall be extended to the next day which is not a Saturday, Sunday, or legal holiday. When the period of time designated is less than 7 days, intermediate Saturdays, Sundays, and legal holidays shall not be included; when the period is 7 days or more, every day shall be counted.”
- E. Titles, captions, and alphanumeric identifiers are not part of the bylaw, but administrative prerogatives of the Town Clerk and may be amended by the Town Clerk. Also, whole sections of the bylaw may be repositioned by the Town Clerk provided that no substantive changes result.
- F. Except for dog regulations, no criminal enforcement or noncriminal disposition for violations of these bylaws shall be commenced after 60 days from the commission thereof.
- G. Duties assigned by bylaw are delegable to subordinates, unless otherwise stated.
- H. Criminal fines, which are stated as a specific dollar amount, shall mean not to exceed the amount stated.

Where no special permit is required by the Town's Zoning Bylaw for the keeping or raising of animals for which application is also being made under these regulations, the Health Director shall not act on the application until more than 14 days have passed since the mailing of notice to Neighbors. If at the end of that period the Health Director has received written comments whereby the owners of a majority of the Neighboring Properties have expressed objection to the application, the Health Director shall schedule and hold, within 30 days of the deadline for receiving Neighbors' comment, an administrative hearing for the purpose of taking public testimony regarding the proposal. The Health Director shall give written notice of the time and place of the hearing, not less than 7 days prior to the hearing, to the applicant by certified mail, to Neighbors and parties in interest by mail, by posting with the Town Clerk, and by publication once in a newspaper of local circulation. 3.31 – WETLANDS PROTECTION

PENALTIES FOR VIOLATION OF THE WETLANDS PROTECTION BYLAW

Criminal Enforcement: \$300.00 fine

Noncriminal Disposition: no provision made

A. Purpose

The purpose of this bylaw is to protect the wetlands, water resources, and adjoining land areas in the Town of Amherst by controlling activities deemed by the Conservation Commission likely to have a significant or cumulative effect upon resource area values, including the following: public and private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water quality, water pollution prevention, wildlife habitat, rare species habitat including rare plant species, agriculture, aquaculture, and recreation values, deemed important to the community (collectively, the “resource area values protected by this bylaw”). This bylaw is intended to utilize the Home Rule authority of this municipality to protect additional resource areas, for additional values, with additional standards and procedures stricter than those of the Wetlands Protection Act (M.G.L. c. 131, § 40) and regulations thereunder (310 CMR 10.00 et seq.).

B. Jurisdiction

Except as permitted by the Conservation Commission or as provided in this bylaw, no Person shall commence to remove, fill, dredge, build upon, degrade, discharge into, or otherwise Alter the following resource areas: a freshwater wetland; marsh; wet meadow; bog; swamp; isolated wetland; vernal pool; bank; reservoir; pond; river; perennial stream; intermittent stream; watercourse; water within water bodies; land under water bodies; land subject to flooding or inundation by groundwater, surface water, or storm flowage; and land abutting any of the aforesaid resource areas as set out in Section G(4) below (collectively the “resource areas protected by this bylaw”). Resource areas shall be protected whether or not the resource areas border surface waters.

C. Conditional Exceptions

- (1) The application and permit required by this bylaw shall not be required for maintaining, repairing, or replacing, but not substantially changing or enlarging, an existing and lawfully located structure or facility used in the service of the public to provide electric, gas, telephone, telegraph, or other telecommunication services, or sanitary or storm sewers, provided that written notice has been given to the Commission prior to the commencement of work, and provided that the work

conforms to performance standards and design specifications in regulations adopted by the Commission.

- (2) The application and permit required by this bylaw shall not be required for work performed for normal maintenance or improvement of land which is lawfully in agricultural use at the time the work takes place.
- (3) The application and permit required by this bylaw shall not be required for emergency projects necessary for the protection of the health or safety of the public, provided that the work is to be performed by or has been ordered to be performed by an agency of the Commonwealth or a political subdivision thereof; provided that advance notice, oral or written, has been given to the Commission, prior to commencement of the work or within 24 hours after commencement; provided that the Commission or its agent certifies the work as an emergency project; provided that the work is performed only for the time and place certified by the Commission for the limited purposes necessary to abate the emergency; and provided that within 21 days of commencement of an emergency project a permit application shall be filed with the Commission for review as provided by this bylaw. Upon failure to meet these and other requirements of the Commission, the Commission may, after notice and a public hearing, revoke or modify an emergency project approval and order restoration and mitigation measures.
- (4) The application and permit required by this bylaw shall not be required for exemptions under the Rivers Act (Chapter 258 of the Acts of 1996) and 310 CMR 10.58.
- (5) Other than stated in this section, the exceptions provided in the Wetlands Protection Act (M.G.L. c. 131, § 40) and regulations (310 CMR 10.00 et seq.) shall not apply under this bylaw.

D. Applications for Permits (Notice of Intent or NOI) and Requests for Determination (RFD)

- (1) Written application shall be filed with the Commission to perform activities affecting resource areas protected by this bylaw. The permit application shall include information and plans deemed necessary by the Commission to describe proposed activities and their effects on the resource areas protected by this bylaw. No activities shall commence without receiving and complying with a permit issued pursuant to this bylaw.
- (2) The Commission in an appropriate case may accept as the permit application and plans under this bylaw the Notice of Intent and plans filed under the Wetlands Protection Act (M.G.L. c. 131, § 40) and regulations (310 CMR 10.00 et seq.).
- (3) Any Person desiring to know whether or not a proposed activity or an area is subject to this bylaw may request in writing a determination from the Commission. The

Request for Determination (hereafter RFD) shall include information and plans deemed necessary by the Commission.

- (4) At the time of a permit (NOI) or RFD Application, the applicant shall pay a filing fee specified in the regulations of the Commission. The fee is in addition to that required by the Wetlands Protection Act (M.G.L. c. 131, § 40) and regulations (310 CMR 10.00 et seq.). The filing fee shall be commensurate with the reasonable expenses incident to the licensing.
- (5) Upon receipt of a permit application or RFD, or at any point during the hearing process, the Commission is authorized to require an applicant to pay a fee for the reasonable costs and expenses borne by the Commission for specific expert engineering and other consultant services deemed necessary by the Commission to come to a final decision on the application. This fee is called the “consultant fee.” The specific consultant services may include: performing or verifying the accuracy of resource area survey and delineation; analyzing resource area functions and values, including wildlife habitat evaluations, hydrogeologic and drainage analysis; and researching environmental or land use law.
- (6) The Commission may require the payment of the consultant fee at any point in its deliberations prior to a final decision. Any unused portion of the consultant fee shall be returned to the applicant unless the Commission decides at a public meeting that additional services will be required.
- (7) The Commission may waive the filing fee, consultant fee, and costs and expenses for a permit application or RFD filed by a government agency.

E. Notice and Hearings

- (1) Any Person filing a permit application or a RFD with the Commission at the same time shall give written notice thereof, by certified mail (return receipt requested), or certificates of mailing, or hand delivered, to all abutters at their mailing addresses shown on the most recent applicable tax list of the assessors, including owners of land directly opposite on any public or private street or way, and abutters to the abutters within 300 feet of the property line of the applicant, including any in another municipality or across a body of water.
- (2) The notice to abutters shall have enclosed a copy of the permit application or request, with plans, or shall state where copies may be examined and obtained by abutters. An affidavit of the Person providing the notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. When a Person requesting a determination is other than the owner, the request, the notice of the hearing, and the determination itself shall be sent by the Commission to the owner as well as to the Person making the request.

- (3) The Commission shall conduct a public hearing on any permit application or RFD, with written notice given at the expense of the applicant, five business days prior to the hearing, in a newspaper of general circulation in the Town of Amherst.
- (4) The Commission shall commence the public hearing within 21 days from receipt of a completed permit application or RFD unless an extension is authorized in writing by the applicant.
- (5) The Commission shall issue its permit or determination in writing within 21 days of the close of the public hearing thereon unless an extension is authorized in writing by the applicant.
- (6) The Commission in an appropriate case may combine its hearing under this bylaw with the hearing conducted under the Wetlands Protection Act (M.G.L. c. 131, § 40) and regulations (310 CMR 10.00 et seq.).
- (7) The Commission shall have the authority to continue the hearing to a date certain announced at the hearing or to an unspecified date, for reasons stated at the hearing, which may include the anticipated or requested receipt of additional information from the applicant or others deemed necessary by the Commission in its discretion, or comments and recommendations of the boards and officials listed in Section F, below. If the hearing is postponed to an unspecified date, the applicant is responsible for the expense of advertising the rescheduled hearing, the notice to appear 5 business days prior to the hearing, in a newspaper of general circulation in the Town. In addition, the applicant shall send written notice of the rescheduled hearing to any Person who has requested it.

F. Coordination with Other Boards

- (1) Any Person filing a permit application or RFD with the Commission shall provide a copy thereof at the same time, by certified mail (return receipt requested), or certificates of mailing, or hand delivery, to the zoning board, planning board, health inspections, town engineer, and building commissioner.
- (2) A copy shall be provided in the same manner to the Conservation Commission of the adjoining municipality if the application or RFD pertains to property within 300 feet of that municipality. An affidavit of the Person providing notice, with a copy of the notice mailed or delivered, shall be filed with the Commission. The Commission shall not take final action until the boards and officials have had 14 days from receipt of notice to file written comments and recommendations with the Commission, which the Commission shall take into account but which shall not be binding on the Commission. The applicant shall have the right to receive any comments and recommendations, and to respond to them at a hearing, prior to final action.

G. Permits and Conditions

- (1) The Commission shall have the authority, after a public hearing, to determine whether a specific parcel of land contains or does not contain resource areas protected under this bylaw. If the Commission finds that no resource areas are present, it shall issue a negative determination.
- (2) If the Commission, after a public hearing, determines that the activities that are subject to the permit application, or the land and water uses that will result therefrom, are likely to have a significant individual or cumulative effect upon the resource area values protected by this bylaw, the Commission, within 21 days of the close of the hearing, shall issue or deny a permit for the activities requested. If it issues a permit, the Commission shall impose conditions that the Commission deems necessary or desirable to protect those values, and all activities shall be done in accordance with those conditions. The Commission shall take into account the cumulative adverse effects of loss, degradation, isolation, and replication of protected areas throughout the community and the watershed, resulting from past activities, permitted and exempt, and foreseeable future activities.
- (3) The Commission is empowered to deny a permit for failure to meet the requirements of this bylaw: for failure to submit necessary information and plans requested by the Commission; for failure to meet the design specifications, performance standards, and other requirements in regulations of the Commission; for failure to avoid or prevent unacceptable significant or cumulative effects upon the resource area values protected by this bylaw; and where no conditions are adequate to protect those values. Due consideration shall be given to any demonstrated hardship on the applicant by reason of denial, as presented at the public hearing.
- (4) Lands within 200 feet of rivers and within 100 feet of other resource areas, are presumed important to the protection of these resources because activities undertaken in close proximity to resource areas have a high likelihood of adverse impact upon the wetland or other resource, either immediately, as a consequence of construction, or over time, as a consequence of daily operation or existence of the activities. These adverse impacts from construction and use can include erosion, siltation, loss of groundwater recharge, poor water quality, and loss of wildlife habitat. The Commission therefore may require that the applicant maintain a strip of continuous, undisturbed vegetative cover within, or in some instances up to the full extent of the 200-foot or 100-foot buffer area, unless the applicant convinces the Commission that the area or part of it may be disturbed without harm to the values protected by the bylaw.
- (5) To prevent wetlands loss, the Commission shall require applicants to avoid wetlands Alteration wherever feasible; shall minimize wetlands Alteration; and, where Alteration is unavoidable, shall require full mitigation. The Commission may authorize or require replication of wetlands on a two-to-one basis as a form of mitigation, but only with adequate security, professional design, and monitoring to assure success, because of the high likelihood of failure of replication.

- (6) A permit shall expire 3 years from the date of issuance. Notwithstanding the above, the Commission at its discretion may issue a permit expiring 5 years from the date of issuance for recurring or continuous maintenance work, provided that annual notification of time and location of work is given to the Commission prior to the work. A permit may be renewed once for an additional 1-year period, provided that a request for a renewal is received in writing by the Commission prior to expiration. Notwithstanding the above, a permit may contain requirements which shall be enforceable for a stated number of years, indefinitely, or until permanent protection is in place, and shall apply to all owners of the land.
- (7) For good cause the Commission may revoke or modify a permit or determination issued under this bylaw after public notice to the holder of the permit or determination, notice to the public and town boards, pursuant to V and VI above, and a public hearing.
- (8) The Commission in an appropriate case may combine the permit or determination issued under this bylaw with the Order of Conditions or Determination of Applicability issued under the Wetlands Protection Act (M.G.L. c. 131, § 40) and regulations (310 CMR 10.00 et seq.).
- (9) No work proposed in any permit application shall be undertaken until the permit issued by the Commission with respect to the work has been recorded in the registry of deeds or, if the land affected is registered land, in the registry section of the land court for the district wherein the land lies, and until the holder of the permit certifies in writing to the Commission that the permit has been recorded.

H. Regulations

After public notice and public hearing, the Commission shall promulgate rules and regulations to effectuate the purposes of this bylaw effective when voted and filed with the Town Clerk. The Commission may amend the rules and regulations after public notice and public hearing. Failure by the Commission to promulgate rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this bylaw. Unless otherwise stated in this bylaw or in the rules and regulations promulgated under this bylaw, the definitions, procedures, and performance standards of the Wetlands Protection Act (M.G.L. c. 131, § 40) and Regulations (310 CMR 10.00 et seq.) as most recently promulgated shall apply.

- (1) By a proper bond or deposit of money or negotiable securities or other undertaking of financial responsibility sufficient in the opinion of the Commission, to be released in whole or in part upon issuance of a Certificate of Compliance for work performed pursuant to the permit.

This method shall be used only with the consent of the applicant.

K. Enforcement

- (1) No Person shall remove, fill, dredge, build upon, degrade, or otherwise alter resource areas protected by this bylaw, or cause, suffer, or allow these activities, or leave in place unauthorized fill, or otherwise fail to restore illegally altered land to its original condition, or fail to comply with a permit or an enforcement order issued pursuant to this bylaw.
- (2) The Commission, its agents, officers, and employees shall have authority to enter upon privately owned land for the purpose of performing their duties under this bylaw and may make or cause to be made examinations, surveys, or sampling as the Commission deems necessary, subject to the constitutions and laws of the United States and the Commonwealth.
- (3) The Commission shall have authority to enforce this bylaw, its regulations, and permits issued thereunder by violation notices, administrative orders, and civil and criminal court actions. L. Burden of Proof

The applicant for a permit shall have the burden of proving by a preponderance of the credible evidence that the work proposed in the permit application will not have unacceptable significant or cumulative effect upon the resource area values protected by this bylaw. Failure to provide adequate evidence to the Commission supporting this burden shall be sufficient cause for the Commission to deny a permit or grant a permit with conditions.

M. Appeals

A decision of the Commission shall be reviewable in accordance with M.G.L. c. 249, § 4.

N. Relation to the Wetlands Protection Act

This bylaw is adopted under the Town’s Home Rule powers and may in some respects be more stringent than Commonwealth’s Wetlands Protection Act (M.G.L. c. 131, § 40) and regulations (310 CMR 10.00 et seq.) thereunder.

The application shall be accompanied by plans, elevations, specifications, material, and other information, including, in the case of demolition or removal, a statement of the proposed condition and appearance of the property thereafter, as may be reasonably deemed necessary by the Commission to enable it to make a determination on the application.
- (2) The Commission shall determine within 14 days of the filing of an application for a Certificate whether the application involves any Exterior Architectural Features that are within the jurisdiction of the Commission.
- (3) If the Commission determines that an application for a Certificate does not involve any Exterior Architectural Features, or involves an Exterior Architectural Feature that is not subject to review by the Commission under the provisions of this bylaw, the Commission shall forthwith issue a Certificate of Non-Applicability.
- (4) If the Commission determines that the application involves an Exterior Architectural Feature subject to review under this bylaw, it shall hold a public hearing on the application, except as may otherwise be provided in this bylaw. The Commission shall hold a public hearing within 45 days from the date of the filing of the application. At least 14 days before the public hearing, public notice shall be given by posting on the Town Bulletin Board. The notice shall identify the time, place, and purpose of the public hearing. In addition, a public hearing on an application for a Certificate may be waived by the Commission if the Commission determines that the Exterior Architectural Feature involved, or its category, is so insubstantial in its effect on the District that it may be reviewed by the Commission without a public hearing. If the Commission dispenses with a public hearing on an application for a Certificate, notice of the application shall be given to the owners of all adjoining property and of other property deemed by the Commission

to be materially affected thereby as above provided, and 10 days shall elapse after the mailing of the notice before the Commission may act upon the application.

- (5) Within 60 days after the filing of an application for a Certificate, or within further time as the applicant may allow in writing, the Commission shall issue a Certificate or a disapproval. In the case of a disapproval of an application for a Certificate, the Commission shall set forth in its disapproval the reasons for the disapproval. The Commission may include in its disapproval specific recommendations for changes in the applicant's proposal with respect to the appropriateness of design, arrangement, texture, material, and similar features which, if made and filed with the Commission in a subsequent application, would make the application acceptable to the Commission.
- (6) The concurring vote of a majority of the members of the Commission shall be required to issue a Certificate.
- (7) In issuing Certificates, the Commission may, as it deems appropriate, impose certain conditions, and limitations, and may require architectural or plan modifications consistent with the intent and purpose if this bylaw.
- (8) If the Commission determines that the Construction or Alteration for which an application for a Certificate of Appropriateness has been filed will be appropriate for or compatible with the preservation or protection of the District, the Commission shall issue a Certificate of Appropriateness.
- (9) If the Construction or Alteration for which an application for a Certificate of Appropriateness has been filed shall be determined to be inappropriate and therefore disapproved, or in the event of an application for a Certificate of Hardship, the Commission shall determine whether, owing to conditions especially affecting the Building or Structure involved, but not affecting the District generally, failure to approve an application will involve a substantial hardship, financial or otherwise, to the applicant and whether the application may be approved without substantial detriment to the public welfare or to the District and without substantial derogation from the intent and purposes of this bylaw. If the Commission determines that, owing to applicable conditions, failure to approve an application will involve substantial hardship to the applicant and approval thereof may be made without substantial detriment or derogation, the Commission shall issue a Certificate of Hardship.
- (10) The Commission shall send a copy of its Certificates and disapprovals to the applicant and shall file a copy of its Certificates and disapprovals with the Town Clerk and the Building Commissioner. The date of issuance of a Certificate or disapproval shall be the date of the filing of a copy of the Certificate or disapproval with the Town Clerk.
- (11) If the Commission should fail to issue a Certificate or a disapproval within 60 days of the filing of the application for a Certificate, or within further time as the applicant

may allow in writing, the Commission shall thereupon issue a Certificate of Hardship Due to Failure to Act.

- (12) Each Certificate issued by the Commission shall be dated and signed by its Chair or another person designated by the Commission to sign Certificates on its behalf.
- (13) A Person Aggrieved by a determination of the Commission may, within 20 days of the issuance of a Certificate or disapproval, file a written request with the Commission for a review by a person or persons of competence and experience in these matters, acting as arbitrator and designated by the Pioneer Valley Planning Commission (PVPC). The finding of the person or persons making the review shall be filed with the Town Clerk within 45 days after the request, and shall be binding on the applicant and the Commission, unless a further appeal is sought in the Superior Court as provided in M.G.L. c. 40C, § 12A. The filing of further appeal shall occur within 20 days after the finding of the arbitrator has been filed with the Town Clerk.

I. Criteria for Determinations

- (1) In deliberating on applications for Certificates, the Commission shall consider, among other things: the historic and architectural value and significance of the site, Building, or Structure; the general design, proportions, detailing, mass, arrangement, texture, and material of the Exterior Architectural Features involved; and the relation of Exterior Architectural Features to similar features of Buildings and Structures in the surrounding area. The Commission shall be guided by the purpose of this bylaw to preserve and protect Exterior Architectural Features of the Buildings and Structures in the District as in existence at the time of the bylaw's adoption.
- (2) In the case of new Construction or additions to existing Buildings or Structures, the Commission shall consider the appropriateness of the scale, shape, and proportions of the Building or Structure both in relation to the land area upon which the Building or Structure is situated and in relation to Buildings and Structures in the vicinity. The Commission may, in appropriate cases, impose dimensional and setback requirements in addition to those required by applicable statute or bylaw.
- (3) When ruling on applications for Certificates on solar energy systems as defined in M.G.L. c. 40A, § 1A, the Commission shall consider the policy of the Commonwealth of Massachusetts to encourage the use of solar energy systems and to protect solar access.

 - g. The reconstruction, substantially similar in exterior design, of a Building, Structure or Exterior Architectural Feature damaged or destroyed by fire, storm, or other disaster, provided reconstruction is begun within 1 year thereafter and carried forward with due diligence.
- (2) Upon request, the Commission shall issue a Certificate of Non-Applicability with respect to Construction or Alteration in any category not subject to review by the Commission in accordance with the above provisions.
- (3) Nothing in this bylaw shall be construed to prevent the ordinary maintenance, repair, or replacement of any Exterior Architectural Feature within a District that does not involve a change in design, material, or the outward appearance, nor to prevent landscaping with plants, trees, or shrubs, nor construed to prevent the meeting of requirements certified by a duly authorized public officer to be necessary for public safety because of an unsafe or dangerous condition, nor construed to prevent any Construction or Alteration under a permit duly issued prior to the effective date of this bylaw.

Notwithstanding, these facilities shall comply with Section G(1)(b) below.

F. Registration & Permitting

(1) Application Process and Requirements

Registration and rental permit applications shall be made on forms approved by the Town, and shall provide information that the Principal Code Official shall deem reasonable and appropriate. Completed applications shall be filed with the office or official identified on the application form approved by the Principal Code Official. Complete rental permit applications shall be reviewed and permits shall be issued within 14 business days from the date of submission. Except as may otherwise be permitted by the Code Official, a rental permit application shall identify the total number of rental units on the property.

Information required as part of a rental permit application shall include:

a. Contact Information & Responsible Persons

Name and current contact information, including mailing address, telephone number, and email address, for the Owner or responsible rental property management entity or Person. Where the rental property Owner(s) or agent does not have a Principal Residence or principal place of business in the Town or within 20 miles of the Town line, and in order to ensure contact in circumstances when the Owner cannot be reached, the Owner shall appoint 1 or more Person(s) who are residents of Amherst to serve as Local Agent(s) for the Owner, authorized to act on the Owner's behalf with regard to the property, but in particular in all matters in response to an Emergency which endangers the property or threatens the welfare of any Person living on the Premises. Notices given to a Local Agent shall be sufficient to satisfy any requirement of notice to the Owner or the operator. The Owner shall notify the Code Official in writing of any change of Local Agent within 5 days of the change.

b. Compliance Through Self-Certification

Evidence of current compliance with all applicable local zoning and regulations, as well as health, fire, and building codes of the Commonwealth, shall be

provided through submission of an Owner's Self-Inspection and Certification Checklist provided by the Town as set forth in Section G below. An Owner or property manager may provide the Town with a single Self-Inspection and Certification Checklist for multiple units provided that the units are on a single property. Where the units represent a portion of the total rental units on the property, the applicant shall propose a schedule of Self-Inspection and Certification for the remaining units for the review and approval of the Code Official.

c. Complete & Accurate Information Required

No incomplete application shall be accepted. It shall be a violation of this bylaw for anyone to knowingly provide false or misleading information on an application and may constitute grounds for monetary and other penalties hereunder. See Sections K and L below.

(2) Renewal

Rental permits shall be valid for a period beginning on July 1 and ending on June 30, regardless of when a permit is applied for or approved and issued. Completed applications for permit renewals shall be submitted and received by June 15 of each calendar year.

(3) Permit Posted

A rental permit shall be conspicuously posted and maintained within the Premises in a common area or area as is necessary to be visible to tenants and inspectors.

(4) Transferability

The new Owner or designated operator of the rental property shall be required to promptly notify the Code Official of the acquisition of the property and to submit for review and approval any proposed changes in the provisions of the permit.

G. Inspections & Complaints

(1) Self-Certification

Owners of rental property governed by this bylaw shall self-inspect and certify their properties as required under this section. Nothing herein shall limit the Town's authority or the authority or discretion of the Code Official to investigate and inspect a property in response to a complaint or for other good cause, or to compel abatement of any violation under this bylaw in a manner consistent with or required by the laws of the Commonwealth.

a. Owner Self-Inspection & Certification

An Owner or local agent shall conduct an annual inspection of the property, using a Self-Certification Checklist provided by the Town. The Owner or agent shall sign the Checklist indicating that the information contained therein is complete and accurate as of the date of the annual inspection, and shall submit the Checklist and any required materials along with an application for annual renewal of the rental permit for the property and unit(s) in question. A false statement or false information provided on the Checklist shall constitute a violation of this bylaw.

b. Subsidized Housing

Where residential rental units are regularly inspected under the requirements of the Commonwealth or federal government, no Self-Inspection and Certification shall be required. Annual certification by the Owner that a rental unit has been inspected in accordance with the law of the Commonwealth or federal law shall be provided to the Town and shall be accepted by the Town as evidence of Self-Inspection as part of any permit application or renewal.

c. Self- Inspections & Access

An Owner shall not be found in violation of the Self-Certification requirements of this bylaw if refused access for an inspection by a tenant or Occupant. However, in this instance, the Owner shall either provide the Town with a signed statement from the tenant or Occupant indicating that the inspection was refused, or the Owner shall provide proof that a request for access was served to the tenant or Occupant and the request was thereafter refused.

d. Lease Terms

Subject to and as limited by the laws of the Commonwealth, a provision requiring tenants to agree to provide reasonable access to the Owner(s) or management company shall be a feature of any lease for a rental unit or property permitted under this bylaw. Where no lease is used, the Owner(s) or the Owner's lawful representatives shall provide documentation demonstrating that all tenants were made aware of the Town rental bylaw and inspection system. All leases shall provide an acknowledgment that all tenants have been made aware of these requirements.

e. Leases Available

Copies of all current, active leases for the subject property or units shall be kept on file with the Owner or manager and shall be made available to the Code Official within 48 hours of any request.

(2) Self-Inspection for Different Circumstances

a. Short-Term Rentals

Dwelling Units on an Owner-Occupied property serving as the Owner's Principal Residence, and that contain not more than 2 units, may be rented under simple registration with the Town without the requirement for a rental permit for a period not to exceed 1 year under the following circumstances:

1. During a pending sale of the property by the Owner-Occupant; or
2. In response to regular or periodic interruptions in residency by the Owner-Occupant, where interruptions are the result of illness, catastrophe, professional or academic scheduling, or other temporary reasons for absence that do not affect basic indicia of residency.

At the end of the 1-year rental period, as calculated from the initial date of the lease or occupancy of the unit(s) by Persons other than the Owner(s), any units shall be registered and a rental permit obtained in compliance with this bylaw.

b. Long-Term Tenancies & Periodic Self-Inspections for Rentals

Rental units which have been leased and occupied continuously by the same tenant(s) for a period of not less than 3 years shall require a Self-Inspection & Certification upon initial registration and thereafter at 3-year intervals. Exceptions shall be that Self-Inspection & Certification shall be required upon any change in tenants or may be required at more frequent intervals at the discretion of the Code Official in response to complaints or other circumstances requiring a Town inspection.

(3) Complaints & Response Process

Upon receipt of a complaint or notice from any Person alleging that the condition of a rental unit or property is in violation of any law or Commonwealth or local requirement, or of any violation of this bylaw, the Code Official shall conduct an inspection of a premise within a reasonable amount of time. Inspections shall be as scheduled by the Code Official.

Inspections of rental properties, buildings, grounds, and rented dwelling or Rooming Units shall be conducted in accordance with all applicable local and Commonwealth laws, regulations, and codes, in a manner consistent with the laws of the Commonwealth.

Subject to the above limitation, all rental units are subject to inspection upon complaint or request by a tenant. Issuance of a rental permit to an Owner does not

preclude a tenant's right to file a complaint with the Town, to which the Town must respond with an inspection in compliance with the provisions of the law of the Commonwealth and regulations promulgated thereunder.

(4) Access to Properties

In accordance with Section G(1)(d), the permit holder shall make a good faith effort to arrange access by authorized Town personnel to any permitted rental property for the purpose of conducting inspections within 24 hours of receiving a request.

H. Tenant Information

The Owner shall be required to distribute to tenants annually, and to each new tenant, an information sheet provided by the Town describing key local regulations: bylaws, including those pertaining to noise, alcohol, and nuisance houses; and Commonwealth laws and codes applying to rental properties. As part of the Registration and Self-Certification process, the Owner shall attest to understanding the provided information and the necessity of compliance with the rules and laws described, as well as distributing it to tenants.

I. Occupancy Limits and Zoning

The maximum number of adult Persons who may occupy a Dwelling Unit or Rooming Unit shall be as determined by the requirements of the Zoning Bylaw and Commonwealth standards for fitness for habitation. The fact that a structure or use may be permitted or authorized under the Zoning Bylaw shall not exempt the structure or use from application of this bylaw or relieve or excuse compliance herewith.

J. Parking

Existing parking, and new or expanded parking on residential rental properties, shall comply with the General Requirements and Design Standards and Landscape Standards of the Parking & Access Regulations of the Zoning Bylaw.

(1) Parking Site Plan

A basic parking site plan, as described below, meeting the requirements of this section shall be developed and submitted as part of any rental permit application. Submission of an existing site plan approved under a land use (zoning) permit and which accurately represents current on-site parking shall meet the requirements of this section.

a. Basic Parking Site Plan Requirements

The parking site plan shall be drawn to scale (1"=20' preferred), as appropriate to the site. Except as may otherwise be required by the Code Official or under the provisions of the Zoning Bylaw, Town GIS mapping may be used as the

base for a site plan developed under this section. The basic parking site plan shall accurately depict the area within which parking is proposed, including:

1. property boundaries;
 2. existing driveways and pedestrian walks;
 3. dwellings and structures;
 4. all existing and proposed on-site parking spaces;
 5. existing and proposed landscaped areas;
 6. fencing or other barriers or screening; and
 7. site features such as trees over 12 inches in diameter (as measured 5 feet above grade), bedrock outcroppings, steep slopes, and other site features as may affect parking locations.
- b. Any provision of Section J(1)(a) may be waived or modified by the Code Official for compelling reasons of safety or design.

(2) Review

Existing on-site parking and circulation shall be reviewed by the Code Official for conformance with existing zoning requirements, including parking layout and circulation, paving, parking space dimensions, screening, and, in consultation with the Fire Chief, the sufficiency of circulation and vehicular access for public safety and emergency vehicles.

K. Enforcement Procedures

Except for cases where conditions exist which may endanger or impair the health, or safety and well-being of a Person or Persons occupying the Premises or as may otherwise be provided for by the Massachusetts Sanitary Code, Building Code, Fire Regulations, or other Commonwealth or local law or regulation, the response of Code Officials to potential violations of this bylaw shall include 1 or more of the actions as deemed necessary by the Code Official. (1) Complaint Filed

Any Person may file a complaint regarding 1 or more violations of this bylaw.

(2) Property Research

The Code Official shall perform a limited initial research of the property to confirm permit history, assessor's information, and other pertinent information. The Code Official may contact the alleged violator, Occupant, or Responsible Party to gather additional information. When appropriate the Code Official shall notify the Owner that a complaint has been filed against the property and that an initial site inspection is anticipated.

(3) Site Inspection

The Code Official shall conduct a site inspection to determine the validity of the complaint and collect any relevant facts of the case.

(4) Notice of Violation or Enforcement Order

After inspecting the site and upon confirming that a violation exists, the Code Official shall inform the Responsible Party or parties in writing of the violation and specify a time period within which to correct the violation. Violations may be cited pursuant to the applicable Commonwealth or local code or regulation.

(5) Follow up Inspection

A follow up inspection shall be conducted upon the expiration of the time specified to correct the violation.

(6) Penalties

The Code Official may elect to impose penalties in instances where:

- a. compliance has not been achieved after the Responsible Party or parties have been made aware of the violation and given a reasonable opportunity to come into compliance; or
- b. for repeat offenses.

(7) Suspension of Rental Permit

In instances of egregious violations and when all reasonable and practical efforts have been made by the Code Official to gain compliance at a property without result, the Principal Code Official may suspend a rental permit based upon the specific criteria provided in Section L of this bylaw. The permit holder shall have the opportunity to be heard and appeal the decision of the Principal Code Official to impose a suspension in accordance with Section M of this bylaw.

(8) Court Relief

If a violator fails to comply with an Enforcement Order, the Code Official may seek a court order to remedy the violation.

L. Penalties

(1) Suspension

Based on the standard of proof and criteria specified herein the Principal Code Official is authorized to suspend a rental permit. A suspension shall take effect immediately upon the day following the end of the current lease, or upon any termination of the lease prior to that date. The suspension of a rental permit shall be imposed to affect only those units which are the subject of the violation(s) and enforcement action(s). Permits may be suspended if:

- a. An Owner or Owner's Agent has knowingly allowed or assisted in allowing violations of this bylaw. The Code Official must collect compelling documentation through an investigation to substantiate this violation and support the recommendation to suspend a permit.
- b. An Owner or Owner's Agent repeatedly refuses or neglects to comply with an order of the Code Official. The Code Official must find that the Owner or Agent has not taken action to achieve compliance of the property and that at least 90 days have expired without compliance since the date of receipt of the Enforcement Order. During this time the Code Official shall inform the Owner or their Agent in writing that the permit is subject to suspension. Suspensions shall be as follows:

First Offense – 90 days

Second Offense in a twelve month period – 180 days

Third Offense in a twelve month period – 3 years

M. Appeals from decision of the Code Official

The Town Manager is hereby authorized to establish and appoint a Rental Appeals Board, and to promulgate regulations for its membership and the conduct of its business.

A decision by the Code Official to suspend a permit may be challenged by the permit holder by filing an appeal to the Rental Appeals Board. All appeals shall be filed within 14 days of the decision and shall be heard within 30 days of filing. All appeals shall be heard at a duly

noticed public hearing and any party filing an appeal shall have the right to be represented by counsel.

A decision of the Rental Appeals Board shall be final. Further relief of a decision by the Rental Appeals Board made under this bylaw shall be reviewable in a court of competent jurisdiction.

- (2) The Project shall be designed to operate without Fossil Fuels except as may be needed for emergency power generators, Process Energy, or Specialized Equipment.
- (3) Renewable Energy Systems shall supply at least as much energy, on an annual basis, as is used by the Project for heating, cooling, ventilation, domestic hot water, lighting, telecommunications, computers, elevators, plug loads, food preparation, refrigeration,

cooking, and all other building systems that require energy for operation, except for emergency power generators, Process Energy, or Specialized Equipment.

D. Applicability

- (1) This bylaw shall apply to all Projects with a Total Project Cost more than \$2,000,000, as determined by the Town Manager, at the completion of the most recent Feasibility Study for the Project and prior to development of the Schematic Design.
- (2) For construction undertakings that combine renovation and new addition(s), only the new addition(s) shall constitute the Project for purposes of this bylaw. Monitoring equipment shall be installed to enable separate determination of energy use by the Building and Building Addition(s).
- (3) For all Projects to which this bylaw applies, the Town shall design a Zero Energy Capable Project in compliance with this bylaw. If the cost of purchase and installation of the Town owned new and independently measured Renewable Energy Systems for the Project exceeds 10% of the Zero Energy Ready Project Cost (Total Project Cost minus the purchase and installation cost of the Renewable Energy Systems) then the Town shall:
 - a. proceed with the Zero Energy Capable Project design;
 - b. include in that design as much of the Renewable Energy Systems for the Project as equals 10% of the Zero Energy Ready Project Cost; and
 - c. plan to obtain any remaining energy capacity to meet the remaining need by Renewable Energy as long as the per kilowatt hour cost is less than or comparable to the per kilowatt hour cost of utility provided electricity in the first year of the contract. Only in the last circumstance may the Town purchase energy that is not specifically dedicated to the Project.
- (4) Renewable Energy Systems not on the Project site or not on the same electric meter as the subject Buildings or Building Additions may be used if insufficient solar or wind exposure is available on the Project site. The renewable energy systems shall be dedicated exclusively to the Project and the energy generated shall be measured independently.
- (5) The Town may sell Renewable Energy Certificates.

E. Compliance with this bylaw

Compliance with this bylaw shall be determined by successful completion of all of the following:

- (1) Certification by the Architect of Record that the final Construction Documents, if followed, will produce a completed Project that is Zero Energy Capable.
- (2) Peer Review confirming that in the opinion of the third-party reviewer, the final Construction Documents, if followed, will produce a completed Project that is Zero Energy Capable.
- (3) Completed contracting for Commissioning at a suitable point prior to occupancy, and Re-commissioning at a point 12 months after occupancy. However, the failure to achieve the Zero Energy Requirements at the point of 12-month Re-commissioning shall not affect compliance with this bylaw.
- (4) Compliance shall be measured by the projected Site Energy, not Source Energy.

F. Implementation

The Town and the Project end-users shall undertake, on a good faith basis:

- (1) To formulate a preliminary Energy Budget for the Project consistent with the Zero Energy Requirements prior to Schematic Design.
- (2) To endeavor to operate the Project in accordance with a final Energy Budget for the Project consistent with the Zero Energy Requirements.

3.53 – PERCENT FOR ART

(Voted 9-21-2020 by the Town Council)

Section 1: Purpose

The purpose of this bylaw is to promote the enjoyment of the arts by increasing the quantity and quality of public art in Amherst, thereby expanding the value and use of public buildings,

facilities and spaces, and contributing to the Town's cultural vitality and economic well-being.

Therefore, this bylaw establishes a funding program to ensure that public art is acquired, created, and otherwise made available in Amherst. It authorizes an allocation for public art of an amount equal to one-half percent (0.5%) of the capital costs of any eligible Town construction project budgeted at a minimum of \$1,000,000.

Section 2: Definitions

For the purposes of this bylaw, the following words shall have the following meanings:

"Public Art Commission" means the Commission established by the Town in 1990.

"Public art/public artwork" means permanent art projects that are an integral part of a public building, facility or space. Such art may include, but shall not be limited to, paintings, sculpture, engravings, carvings, frescoes, stained glass, mobiles, murals, collages, mosaics, bas-reliefs, tapestries, photographs, drawings, and landscape items, including the artistic placement of natural materials or manmade fountains or other functional art objects.

The public artwork shall be located at, within or upon the site of the building, facility or space associated with the construction project, so long as the public artwork is accessible to the public.

"Public buildings, facilities and spaces" means publicly accessible structures, infrastructure, parks, and landscapes.

"Construction project" means any capital project paid for in full or in part by the Town through its own eligible funds to construct or remodel any public building, facility or space, or any portion thereof, within the corporate limits of the Town and with respect to the construction of which bidding is required under State law.

"Eligible funds" means the funds for construction projects from the Town's General Fund, including any funds to be borrowed that will be repaid from the General Fund; funds raised by grants if permissible under the terms of the grant; or funds provided by taxation, including those funded pursuant to a debt exclusion.

"Percent for Art Advisory Committee" means a group temporarily appointed by the Town Manager for one or more construction projects in consultation with the Public Art Commission. This Committee shall include a majority of professionals who work in the arts in fields such as production, education, criticism, administration, fund raising, curating, and collecting, who are well-respected and knowledgeable regarding visual art. The Committee shall also include key stakeholders, including but not limited to users of the proposed building, neighbors of the project and other members of the public.

Section 3: Funding

All eligible funds for construction projects budgeted at \$1,000,000 or greater shall include an amount equal to one-half percent (0.5%) of the total eligible, estimated costs of such projects, as determined by the Town Manager or designee, for public art. This calculation shall be made no later than when funding for the construction of this project is voted by Town Council, and shall be voted as a separate line-item of the project. If estimated project costs rise after the designated percent for art is determined, the amount designated as a percent for art will not increase; but if estimated project costs decrease, the amount will be recalculated based on the lower estimated project costs, provided that a contract for art work has not already been executed.

Copies of all estimated project costs shall be delivered to the Public Art Commission as soon as possible during the planning stages of the project in order to include an artist as part of the construction project team. The estimates shall include all construction costs, architectural and engineering fees, and site work expenses.

Funds appropriated for this purpose may be used for design services of artists, for the selection, acquisition, purchase, commissioning, installation and display of public art, and other incidental and related costs. Any money authorized for a particular public artwork that has not been spent by the end of the third fiscal year following such authorization, or by the end of the fifth fiscal year upon special approval by the Town Council, shall, at the end of that fiscal year, revert to its original funding source.

The following are excluded from this source of funding: elements that are designed or designated by a construction project's architect or landscape architect, as opposed to an artist commissioned for this purpose; and mass-produced art objects of standard design such as playground equipment or fountains.

Following consultation with the Town Manager, the Town Council may, by majority vote, lower or eliminate the percentage for art on any qualifying construction project.

Section 4: Public Art Ownership

Ownership of artwork selected in accordance with this bylaw shall transfer to the Town of Amherst upon final installation and in accordance with any applicable contract executed between the Town and the artist or other legal entity responsible for providing such art. In addition to any other terms and conditions that may be established by contract, the public art project artist or other legal entity responsible for providing such art, shall provide and maintain insurance coverage for such purposes and in such amounts as required by the Town, with the Town named as an additional insured or the equivalent, for the duration of the creation, fabrication and installation of the artwork.

Any decision concerning deaccessioning shall be made by the Public Art Commission in consultation with the Town Manager. Any funds generated from such deaccession shall be treated as General Fund revenue.

Section 5: Responsibilities

The Percent for Art program shall be administered by the Public Art Commission, under the supervision of the Town Manager, with the assistance of a Percent for Art Advisory Committee.

The Public Art Commission's responsibilities include:

- (1) Working with the Town Manager to develop a plan and appropriate guidelines to manage such projects, which may include: recommendations for prioritizing the creation and placement of artwork in public buildings, facilities and spaces around Town; establishing general guidelines for the selection of artists and public artworks; meetings with relevant Town departments in coordination with the Town Manager, nonprofit organizations, and members of the public; and public hearings.

- (5) Advising the Town Manager with respect to soliciting proposals for review and selecting such projects with the assistance of a Percent for Art Advisory Committee and in consultation with the construction project architect and manager and appropriate Town officials and agencies. The final decision on the public artwork shall be made after public hearing by majority vote of the Public Art Commission, following input from a Percent for Art Advisory Committee and consultation with the Town Manager and other appropriate Town officials.
- (6) Advising the Town Manager, within the amounts appropriated and available therefor, as to the establishment of budgets for such projects, including materials, fees and other reasonably contemplated items of expense in the acquisition, development, creation, and implementation of such projects.
- (7) Working with the Town Manager, monitoring in partnership with the appropriate Town department(s), the installation of such projects and coordination between the artist, and the construction project architect and manager.
- (8) Working with the construction project manager with the goal of avoiding any delays related to the public artwork. The Town Manager, following consultation with the

Public Art Commission (other than in circumstances of an emergency nature) may terminate construction of the public artwork if it is facing significant delays for other reasons consistent with law.

(9) Recommending to the Town Manager dispersal of Percent for Art funds in coordination with the appropriate Town authority or designee(s) for such projects.

(10) Establishing and maintaining records applicable to such projects in coordination with Town staff.

The sign in/out log shall include: the location of the project; current date; printed employee name; signed employee name; name of employee's employer, and the time of each entry or exit. The log shall contain a prominent notice that employees are entitled under state law to receive the prevailing wage rate for their work on the project. Such sign-in/out logs shall be provided to the Town on a monthly basis with the certified payrolls and shall be a public record;
- k. The Contractor shall submit to the Town monthly certified payrolls for all contractors. A certified payroll format will be provided by the Town that includes the employees full name, address, identifying number, gender and whether they are a Person of Color, and which tabulates hours worked for females, People of Color, and Amherst Residents. Each Contractor shall provide a copy of the OSHA 10 card for every employee attached to the first certified payroll they submit on which the employee appears; and
- l. The Sponsor shall provide the Town with a list of all the expected Contractors to work on the project prior to the start of any work on the property subject to the Agreements. The list shall include the name of the primary contact of each Contractor, the Contractor's address, and the Contractor's phone number or email address. E. Noncompliance and Complaints – Grant of Tax Relief

- (1) If any person or entity subject to the foregoing qualifications and conditions fails to comply with any of the foregoing qualifications and conditions with respect to work on the property, the parties agree that such an event materially frustrates the public purpose for which this Agreement and any certification by the state was intended to advance. In such an event, the Tax Relief granted by this Agreement shall be terminated upon written notice by the Town to the Sponsor, and the Sponsor shall pay to the Town an amount equal to the value of the tax relief already received under this Agreement. Where required, the Town shall petition the appropriate state agency or body for revocation of the certification or approval of the grant of Tax Relief and, upon notice of revocation, the tax relief provided by this Agreement shall be terminated, and, to the extent consistent with law, the Sponsor shall pay to the Town an amount equal to the value of the tax relief already received under this Agreement.
- (2) In the event the Sponsor challenges the Town's efforts to invoke the forfeiture/clawback provisions of this Agreement or to obtain revocation by the state, or challenges any decision to revoke any certification or approval of the grant of Tax Relief by the state, the Sponsor shall set aside in an escrow account an amount equal to the full amount of the tax savings that previously would have accrued under the Agreement while any such challenge remains pending. The Sponsor shall have a continuing obligation to contribute to the escrow account amounts equal to the additional tax savings that accrue under this Agreement while its challenge remains pending. The Sponsor shall promptly provide to the Town documentation of its compliance with this obligation. The conditions of the escrow account shall provide that, in the event the Sponsor is unsuccessful in its challenge, the funds in the account shall be paid to the Town. The Sponsor's obligations under this subsection shall be judicially enforceable. It is the intent of the parties to this Agreement that Amherst Residents are third party beneficiaries of this Agreement, and that it may be enforced in a civil proceeding brought by not less than 10 taxable inhabitants.

A. Purpose & Authority

The purpose of this Bylaw is to protect the public health, safety, environment and general welfare of the Town by establishing requirements and procedures to manage stormwater Runoff, promote groundwater Recharge, and to prevent water pollution from new Development and Redevelopment. Increased and contaminated stormwater Runoff associated with developed land uses and the accompanying increase in Impervious surface, along with construction Site Runoff are major causes of impairment of water quality and flow in ponds, streams, rivers, wetlands and groundwater. The objectives of this Bylaw are:

- (1) Establish decision-making processes surrounding land Development activities that protect the integrity of the watershed and preserve the health of water resources;

- (2) Require that new Development, Redevelopment and all land conversion activities maintain the after-development Runoff characteristics as equal to or less than the Pre-Development Runoff characteristics in order to reduce flooding, stream bank erosion, siltation, Nonpoint Source Pollution, property damage, and to maintain the integrity of stream channels and aquatic habitats;
- (3) Establish minimum Post-Development Stormwater Management standards and design criteria for the regulation and control of stormwater Runoff quantity and quality; establish minimum design criteria for the protection of properties and aquatic resources downstream from land Development and land conversion activities from damages due to increases in volume, velocity, frequency, duration, and peak flow rate of storm water Runoff; establish minimum design criteria for measures to minimize Nonpoint Source Pollution from stormwater Runoff which would otherwise degrade water quality;
- (4) Establish design and application criteria for the construction and use of structural stormwater control facilities that can be used to meet the minimum Post-Development Stormwater Management standards;
- (5) Encourage the use of nonstructural Stormwater Management, stormwater Better Site Design practices or “low-impact Development practices”, such as reducing Impervious cover and the preservation of greenspace and other natural areas, to the maximum extent practicable;
- (6) Establish provisions to ensure that soil erosion and sedimentation control measures, and stormwater Runoff control practices are incorporated into the Site planning and design process, and are implemented and maintained;
- (7) Provide for the long-term responsibility for and maintenance of structural stormwater control facilities and nonstructural Stormwater Management practices to ensure that they continue to function as designed, are maintained, and pose no threat to public safety;
- (8) Ensure that there is an adequate funding mechanism, including surety, for the proper review, inspection, and long-term maintenance of stormwater facilities implemented as part of this Bylaw;
- (9) Establish administrative procedures and fees for the submission, review, approval or disapproval of Stormwater Management plans, and for the inspection of approved active projects, and long term follow up;
- (10) Ensure that construction and waste materials, toxic materials, hazardous materials, and other pollutants are prevented from mixing with stormwater Runoff, which would degrade water quality;
- (11) Comply with state and federal statutes and regulations relating to stormwater discharges;

(12) Establish the Town’s legal authority to ensure compliance with the provisions of this Bylaw through inspection, monitoring, and enforcement.

This Bylaw is adopted under authority granted by the Home Rule Amendment of the Massachusetts Constitution, the Home Rule statutes and pursuant to the regulations of the Federal Clean Water Act found at 40 CFR 122.34, and as authorized by the Charter & Town Council.

Nothing in this Bylaw is intended to replace the requirements of the Zoning Bylaw, the Wetlands Bylaw, or any other Bylaw that may be adopted by the Town, or any Rules and Regulations adopted thereunder. Any activity subject to the provisions of the above-cited Bylaws must comply with the specifications of each.

B. Definitions

“Alter” means any activity that will measurably change the ability of a ground surface area to absorb water, will change existing surface drainage patterns, or will increase or decrease the rate or volume of flow from a Site.

“Best Management Practice (BMP)” means structural, non-structural, and managerial techniques that are recognized to be the most effective and practical means to prevent and/or reduce increases in stormwater volumes and flows, reduce point source and Nonpoint Source Pollution, and promote stormwater quality and protection of the environment. “Structural” BMPs are devices that are engineered and constructed to provide temporary storage and treatment of stormwater Runoff. “Nonstructural” BMPs use natural measures to reduce pollution levels, do not require extensive construction efforts, and/or promote pollutant reduction by eliminating the pollutant source.

“Better Site Design” means Site design approaches and techniques, including Low Impact Development (LID) that can reduce a Site’s impact on the watershed through the use of nonstructural Stormwater Management practices. Better Site Design includes conserving and protecting natural areas and green space, reducing Impervious cover, using natural features for Stormwater Management, and providing Site-wide Infiltration.

“Development” means any construction that disturbs or Alters a parcel of land.

“Disturbance of Land (Land Disturbance)” means any action causing the importation, removal or redistribution of soil, sand, rock, gravel, or similar earth material; results in an increased amount of Runoff or pollutants; measurably changes the ability of a ground surface to absorb waters; involves clearing and grading; or results in an alteration of drainage characteristics.

“Existing Lawn” means the grass area which has been maintained and mowed in the previous two years.

“Impervious” means any material or structure on, above or below the ground that prevents water from infiltrating through the underlying soil. Impervious surface is defined to include,

without limitation: paved surfaces (parking lots, sidewalks, and driveways), concrete, brick, stone, and roof tops.

“Infiltration” means the act of conveying surface water into the ground to permit groundwater Recharge and the reduction of stormwater Runoff from a project Site.

“Low Impact Development (LID)” means an ecosystem-based approach to land Development and stormwater management that ensures that each Development Site is designed to protect, or restore, the natural hydrology of the Site.

“Stormwater Management Handbook” means the latest version as may be amended from time to time of the Massachusetts Stormwater Management Standards and accompanying Stormwater Management Handbook issued by the Department of Environmental Protection pursuant to authority under the Wetlands Protection Act, M.G.L. c. 131, § 40, and the Massachusetts Clean Waters Act, M.G.L. c. 21, §§ 26-53. The Stormwater Management Standards are incorporated in the Wetlands Protection Act Regulations, 310 CMR 10.05(6)(k) and the Water Quality Certification Regulations, 314 CMR 9.06(6)(a).

“Municipal Separate Storm Sewer System (MS4)” or “Municipal Storm Drain System” means the system of conveyances designed or used for collecting or conveying stormwater, including any road with a drainage system, street, gutter, curb, inlet, piped storm drain, pumping facility, retention or detention basin, natural or man-made or altered drainage channel, reservoir, and other drainage structure that together comprise the storm drainage system owned or operated by the Town of Amherst.

“Nonpoint Source Pollution” means pollution from many diffuse sources caused by rainfall, snowmelt, or other method of pollutant transport moving over and through the ground. As the Runoff moves, it picks up and carries away natural and human-made pollutants, finally depositing them into water resource areas.

“Person” means any individual, association, organization, partnership, firm, corporation or other entity recognized by law and acting as either the owner or as the owner's agent.

“Pre-Development” means the conditions that exist prior to the proposed disturbance activity. Where phased Development or plan approval occurs (preliminary grading, roads and utilities, etc.), the existing conditions at the time prior to the first plan submission shall establish Pre-Development conditions.

“Post-Development” means the conditions that reasonably may be expected or anticipated to exist after completion of the land Development activity in accordance with approved plans on a specific Site or tract of land. Post-Development refers to the phase of a new Development or Redevelopment project after completion, and does not refer to the construction phase of a project.

“Recharge” means the replenishment of underground water reserves.

“Redevelopment” means Development, rehabilitation, expansion, demolition, construction, land alteration, or phased projects that disturb the ground surface, including Impervious surfaces, on previously developed Sites. Redevelopment includes maintenance and improvement of existing roadways including widening less than a single lane, adding shoulders, correcting substandard intersections, improving existing drainage systems and repaving; and remedial projects specifically designed to provide improved Stormwater Management such as stormwater retrofit projects.

“Runoff” means rainfall or snowmelt water flowing over the ground surface or other source which may result in transport of pollutants.

“Site” means the entire parcel of land being developed.

“Stormwater Management” means the use of structural or non-structural practices that are designed to control or treat stormwater Runoff pollutant loads, discharge volumes, and/or peak flow discharge rates. Stormwater Management includes the use of Low Impact Development (LID) management practices.

“Stormwater Management Permit (SMP)” means a permit issued by the Department of Public Works after review of an application, plans, calculations, and other supporting documents, which is designed to protect the environment of the Town from the deleterious effects of uncontrolled and untreated stormwater Runoff.

C. Applicability

This Bylaw shall apply to the following activities, whether or not stormwater discharges from these activities enter the Municipal Stormwater Drainage System (MS4):

- (1) All new Development and Redevelopment, Land Disturbance, and any other activity disturbing the drainage characteristics of one acre (43,560 square feet) or more of land, or is part of a common plan of Development or construction that will disturb one acre or more of land, unless exempt pursuant to Section D of this Bylaw;
- (2) Multifamily residential Developments involving four or more units;

The standards set forth herein and promulgated pursuant to this Bylaw are minimum standards; therefore, this Bylaw does not intend nor imply that compliance by any Person will ensure that there will be no contamination, pollution, nor unauthorized discharge of Pollutants.

F. Prohibited Activities

(1) Illicit Discharges. No Person shall dump, discharge, cause, or allow to be discharged any Pollutant or non-Stormwater discharge into the Municipal Separate Storm Sewer System (MS4), into a Watercourse, wetland resource area, or the Waters of the Commonwealth, except as exempted in Section G.

(2) Illicit Connections. The construction, use, maintenance, or continued existence of Illicit Connections to the MS4 system is prohibited. This prohibition expressly includes, without limitation, Illicit Connections made in the past, regardless of whether the connection was permissible under law or practices applicable or prevailing at the time of connection.

(3) Obstruction of Municipal Storm Drain System. No Person shall obstruct or interfere with the normal flow of Stormwater into or out of the MS4 without prior written approval from the DPW Superintendent or their designee.

G. Exemptions: This section shall not apply to any of the following non-Stormwater discharges or flows, provided that the source is not a significant contributor of a Pollutant to the MS4 system:

(1) Waterline flushing and flow from potable water sources, provided verbal notification by telephone or email is given to the Department of Public Works at least 24 hours prior to the time of the test;

- (1) The Department of Public Works may suspend Municipal Storm Drain System access to any Person or property without prior written notice when such suspension is necessary to stop an actual or threatened discharge of Pollutants that presents imminent risk of harm to the public health, safety, welfare or the environment. In the event any Person fails to comply with an emergency suspension order, the Superintendent of Public Works or their designee may take all reasonable steps to prevent or minimize harm to the public health, safety, welfare or the environment.

Superintendent of Public Works or their designee will issue a written order in compliance with Section K(4) of this Bylaw notifying the violator of the proposed termination of its MS4 access. The violator may appeal the order in accordance with Section K(5) of this Bylaw. The owner or operator of a commercial or industrial establishment or construction site shall provide, at their own expense, reasonable protection from accidental discharge of prohibited materials or other wastes into the Municipal Storm Drain System or Watercourses through the use of these structural and non-structural BMPs. Further, any Person responsible for a property or Premises, which is, or may be, the source of an Illicit Discharge, may be required to implement, at said Person's expense, additional structural and non-structural BMPs to prevent the further discharge of Pollutants to the Municipal Separate Storm Sewer System. Compliance with all terms and conditions of a valid NPDES permit authorizing the discharge of Stormwater associated with industrial activity, to the extent practicable, shall be deemed compliance with the provisions of this Section. These BMPs shall be part of a Stormwater Pollution Prevention Plan (SWPPP) as necessary for compliance with requirements of the NPDES permit.

J. Notification of Spills

Notwithstanding other requirements of local, state or Federal law, as soon as a Person responsible for a facility or operation, or responsible for emergency response for a facility or operation has information of or suspects a release of materials at that facility or operation resulting in or which may result in discharge of Pollutants into the municipal drainage system, a wetland resource area, or the Waters of the Commonwealth, the Person shall take all necessary steps to ensure containment, and cleanup of the release. In the event of a release of oil or Hazardous Materials, the Person shall immediately notify the Department of Public Works. Interest shall begin to accrue on any unpaid costs at the statutory rate provided in G.L. Ch. 59, 57 after the thirty-first day at which the costs first become due.

For Applications reviewed for significance by the designee(s), a decision shall be made or the Application shall be referred to the Commission within fourteen (14) days of the receipt of the complete Application. The Commission shall make the determination of Significance if there is not a unanimous vote of the designee(s) or at the request of the designee(s). For Applications reviewed by the Commission, a decision shall be made within twenty-one (21) days from referral by the designee(s).
- c. If the Building has been determined to be Significant, the Commission shall notify the Applicant and Building Commissioner and then will hold a Public Hearing, within twenty-one (21) days of the determination of Significance, as outlined in Section E(2).
- d. If the Building is determined to not be Significant, the Commission or its designee(s) shall give the Building Commissioner and Applicant written notice of this determination. The Building Commissioner may then issue the Demolition Permit.

(2) Public Hearing Procedure

For the purposes of a Public Hearing:

- a. Notice of the Public Hearing shall be sent by Commission staff to the Applicant and property owners within 300 feet at least fourteen (14) days prior to the Public Hearing.
- b. Posting on the Town website and publication within local news media shall take place fourteen (14) days prior to the Public Hearing.
- c. The Commission may hold a site visit prior to the Public Hearing.
- d. The Commission shall hold the Public Hearing on the designated date and time and shall review the Application to determine whether:
 1. the Significant Building shall be Preferably Preserved, per Section G; or
 2. a Demolition Authorization can be issued; or,
 3. the Demolition Delay period should be reduced, per Section E(3).

- e. During the Public Hearing, the Commission shall consider alternatives to Demolition during the Demolition Delay period such as:
 - the incorporation of the building into the future development of the site,
 - the adaptive re-use of the building,
 - the use of financial incentives for the rehabilitation of the building,
 - the relocation of the building to another site, and,
 - with the owner's consent, the search for a new owner willing to purchase the building and preserve, restore, or rehabilitate it.
 - f. If, during the Public Hearing, the Commission determines that the Significant Building shall not be Preferably Preserved, the Commission shall grant a Demolition Authorization to the Applicant.
 - g. If, during the Public Hearing, the Commission decides to reduce the Demolition Delay period, the Commission shall issue a Demolition Authorization to the Applicant.
 - h. If, during the Public Hearing, the Commission determines that the Significant Building shall be Preferably Preserved based on criteria in Section G, then the Commission shall issue a Preservation Order to the Applicant. Upon issuance of a Preservation Order, no Demolition Permit shall be issued by the Building Commissioner for the duration of the Demolition Delay period, unless otherwise agreed to by the Commission in Section under E(3).
 - i. When issuing a Demolition Authorization or a Preservation Order, within 14 days of the close of the Public Hearing, the Commission shall notify the Building Commissioner in writing of its findings, file the decision with the Town Clerk, and provide notice of the decision to the Applicant, including when the Applicant is eligible to apply for a Demolition Permit.
- (3) After a Preservation Order has been issued, an Applicant may apply to the Commission for a reduction of the Demolition Delay period. Within forty-five (45) days following the Commission's receipt of such request, the Commission shall hold a Public Hearing in accordance with the procedures of Section E(2) to consider whether or not to reduce the delay period through the issuance of a Demolition Authorization. At this Public Hearing, the Commission may consider whether the Applicant has taken any of the following actions:
- a. Filed with the Building Commissioner plans for intended future use and development of the site and has been found to comply with all laws pertaining to the issuance of a building permit, including without limitation, any

necessary zoning findings, variances, or special permits required for said use and development.

- b. Made bona fide, reasonable, and unsuccessful efforts to locate a purchaser for the Building who is willing to preserve, rehabilitate, or restore the Building. These efforts could include actions such as marketing the Building for sale and/or relocation, studying the feasibility of rehabilitating the Building, and evaluating the structural integrity of the Building.
 - c. Agreed to accept a Demolition Authorization on specified conditions approved by the Commission, such as those described in E(2)e. If the specified conditions involve approved plans and elevations, the Applicant shall provide the Commission a complete set of plans and elevations.
- (4) At the end of the Demolition Delay period, Commission staff shall issue a Demolition Authorization to the Applicant, notify the Building Commissioner in writing of this issuance, file the decision with the Town Clerk, and provide notice of the decision to the Applicant, including when the Applicant is eligible to apply for a Demolition Permit.

(5) Exemptions

The Building Commissioner may issue a Demolition Permit without Commission review if proposed changes are limited to any of the following:

- a. Removal and replacement of exterior architectural features, including roofing and siding materials, that replicate significant historic design detail with exact or similar material.
- b. The reconstruction, substantially similar in exterior design, of a building, structure, or exterior architectural feature damaged or destroyed by fire, storm, or other disaster, provided such reconstruction is begun within two years thereafter and carried forward with due diligence.

F. Standards for Designation as a Significant Building

The Commission or its designee(s) shall determine that a Building be designated as a Significant Building if it is 75 years old or older and meets one or more of the following criteria:

- (1) The Building is individually listed on, or is a contributing structure within an area listed on, the National Register of Historic Places or is the subject of a pending application for such listing; or
- (2) The Building has value in association with a specific location, or one or more historic persons or events, or with the broad architectural, social, political, economic, or cultural heritage of the Town of Amherst or the Commonwealth; or

- (3) The Building alone, in the context of a group of buildings, or as part of a viewshed, has historical or architectural value, as to period, style, craftsmanship, method of building construction, or in association with a recognized architect or builder.

G. Designation of a Building as Preferably Preserved

The Commission, in the public interest of the Town's robust historic character and rich cultural identities, prefers to preserve Significant Buildings whenever possible. In doing so, the Commission serves to promote the environmental, economic, educational, and social advantages of a community with historic identities and to avert the possible negative impacts of a Significant Building's loss.

To this end, the Commission will weigh the factors which led to the Building's designation as Significant, including additional review of the criteria in Section F and the owner(s) plans for reuse, reconstruction, or restoration, and make a determination regarding its preservation. A designation of "Preferably Preserved" will be applied to those Significant Buildings that the Commission finds would represent a loss to the Amherst community if a Demolition Authorization were granted.

A Preservation Order will be issued for any Building designated as Preferably Preserved delaying the issuance of a Demolition Permit for a period of up to 12 months from the date that the decision is voted on by the Commission. During this 12-month period the Commission members will work with the owner(s) on methods for possible preservation as referenced in Section E(2)e.

H. Emergency Demolition

If after an inspection, the Building Commissioner finds that a Building subject to this Bylaw is found to pose an imminent threat to public health, safety, or welfare due to its deteriorated condition and there is no reasonable alternative to the immediate Demolition of the Building, then the Building Commissioner may issue an emergency Demolition Permit to the owner of the Building. The Building Commissioner shall then prepare a report explaining the condition of the Building and the basis for the decision which shall be forwarded to the Commission.

I. Expiration

(1) Expiration for No Action

- a. If the Building is not determined to be Significant or if a Demolition Authorization is issued, said determination or authorization shall lapse if Demolition has not commenced within one (1) year of the date of the decision.

- b. If Demolition does not commence within the timeframe allowed above, any future Demolition shall be subject again to full review in accordance with the provisions of this Bylaw.
- c. An applicant may request in writing to the Commission a 6-month extension of the time permitted to commence Demolition. The Commission may issue such an extension through a majority vote at a Public Meeting.

J. Enforcement, Penalties, and Remedies

The following enforcement and remedies shall apply under this Bylaw:

- (1) The Commission and the Building Commissioner are each authorized to institute any and all proceedings in law or equity they shall deem necessary and appropriate to obtain compliance with the requirements of this Bylaw, or to prevent a violation thereof.
 - a. Any owner of a Building subject to this Bylaw who knowingly performs Demolition of said Building, or damages a portion of a Building in a way which increases its likelihood of total failure, without first obtaining a Demolition Authorization or a Demolition Permit in accordance with the provisions of this Bylaw, or who likewise, by some causative action, contributes to the deterioration of said Building, shall be in violation of this Bylaw and subject to enforcement by a non-criminal complaint pursuant to the provisions of this Bylaw and M.G.L. Chapter 40, Section 21D, as amended.
 - b. Notwithstanding the above, this section does not create an affirmative obligation to maintain a property.
- (2) No building permit shall be issued with respect to any premises upon which a Building has had Demolition occur in violation of this Bylaw for a period of two (2) years from the date of the completion of such Demolition unless first authorized by the Historical Commission at a Public Hearing.

K. Administration

- (1) The Commission is authorized to adopt rules and regulations to carry out its duties and functions under this Bylaw.
- (2) The Commission may delegate authority at a public meeting to make initial determination of Significance of all or certain Application types to one or more members of the Commission or municipal employees.
