Time to complete

Department Information

1. Department: *

- Planning & Conservation
- DPW
- Fire
- IT
- Town Hall
- Library
- Schools
- Facilities
- Recreation
- Senior Center
- Police
- Other

2. Prepared By: *

Guilford Mooring

3. Date Prepared: *

December 2022

Project Information

4. Project Title: *

Field Maintenance Equipment Phase I

5. Project Cost: *

230000

6. Basis for Cost Estimate: *

Vendor estimates

7. Estimated Useful Life: *

10-15 yrs

8. Project Start Date: *

7/1/2023

9. Project Completion Date: *

6/30/2025

10. Will there be additional costs in future requests? If so, How much and when? *

No, not until the equipment needs replacement or the Towns's fields needs change.

11. Project Description (1-2 paragraphs): *

This request is for the fields' equipment that is currently not available in the DPW inventory to maintain the athletic fields to the level that has most recently been discussed by the Regional School Committee, Town Council, Sports Boosters and others. The equipment includes a tractor for turf use, deep tine aerator, top dresser, mower, groomer and broadcast spreader.

Project Cost Detail

Provide breakdown of how the project budget will be allocated to the categories below.

12. Feasibility Study/Survey/etc:

0

13. Design/Engineering Fees:

0

14. Site Acquisition:

0

15. Site Improvements:

0

16. Construction:

00

17. Equipment/Furnishings (including vehicles):

230000

18. Other:

0

Planning and Prioritization

19. Why is this Project Needed? (May Check More Than One) *

- Maintenance and Improvement of Assets
- Improvement of Infrastructure
- Advancement of Town Council Goal
- Imminent Threat to Health and Safety of Citizens, Employees, or Property
- Improvement/Maintenance of Productivity
- Improvement of an Overburdened Situation
- Newly Identified Need
- Requirement of State or Federal Law

20. Climate Impact: Projects that advance the Town's sustainability goals and reduce greenhouse gas emissions will be weighted more advantageously for funding than those that do not.

Does this request advance the goals of the Town's Climate Action, Adaptation and Resilience Plan

(<https://www.amherstma.gov/DocumentCenter/View/58981/Climate-Action-Adaptation-and-Resilience-Plan-Final-from-June-2021>)?

Vehicles

Does this request replace a fossil fuel technology with a renewable energy source? If no, why not? Is there a renewable fuel technology that exists for this purchase? If so, what is the additional cost?

Building Heating and Cooling Systems

Requests for replacement must include a renewable energy resource option where such systems exist.

*

The estimate above is for conventional fuel technology

21. Are There Any Grants Available to Reduce the Cost of this Request? *

There may be grants for this equipment but are not available in the timeline of this need or the resources to pursue.

22. Urgency? *

- High (1-2 Years)
- Medium (2-4 Years)
- Low (Whenever Funding is Available)

23. What Impact will this request have on the operating budget? (Maintenance, staffing, etc...) *

The impact on the operating budget is a reduction of temporary repairs and complaints.
